ECT215/L
Mid-Term Grade Estimation Worksheet
Professor Wheeler

The following table can be used to estimate your standing in my course as of midterm. *You will be required to fill out the data in this table, and bring it to our mid-term class meeting.*

There are **no** midterm grades delivered by the DeVry system; by filling in the data in this table, you will compute your own midterm grade in my course. You are responsible for keeping track of the information on this worksheet.

Laboratory Midterm Grade:

In the table below, the number of points possible for each lab is given. Write in your scores (from your returned papers).

Lab 1	Lab 2	Lab 3	Lab 4	Lab 5	Lab 6
100	100	100	100	100	100

Your midterm lab grade is the sum of all the lab scores entered, divided by the number of labs assigned (probably 2 or 3 depending on schedule).

Lab Midterm Grade Percentage: _____

Class Midterm Grade:

Your midterm grade will consist of 100 percentage points from homework, and 100 percentage points from exam #1. Complete the data in the table below:

Assignment	HW 1	HW 2	HW 3	HW 4	HW 5	HW 6
Possible Points	29	34	13	23	36	27
Your Score						

Note: Add only the homeworks assigned; may not include HW5 or HW 6.

A: Total Possible Points (Sum of assigned homeworks): _____
B: Points you've earned (Sum of your scores): _____

C: Your midterm homework percentage = 100 * (B/A) = _____
D: Your score on exam 1: _____

Your class midterm grade = (C + D) / 2 = _____
